Upcoming events for IT professionals

ITWeb Governance, Risk and Compliance 2019

20-21 FEBRUARY 2019, **THE FORUM, BRYANSTON**

At ITWeb's 9th annual Governance, Risk and Compliance event, business and IT leaders will learn how to manage risks across the enterprise in an increasingly complex and intrusive environment. There is a great need in the market for more comprehensive, consolidated and actionable governance, risk and compliance (GRC) information, software and products. Risk management is a financial and operational burden. Governance is complex and intrusive. Compliance is demanding and process-driven. At this event we seek to solve these challenges, to provide organisations with valuable tools designed to support their GRC commitments, set best practice standards and transform how they face GRC as a whole. ITWeb Governance, Risk & Compliance 2019 is geared towards a valuable learning experience, with high-level talks, practical case studies, interactive discussions and opportunities for high-level networking. The event covers pressing GRC topics as well as the latest legal developments.

ITWeb BI & Analytics Summit 2019

12-13 MARCH 2019 (CONFERENCE & EXHIBITION)
14 MARCH 2019 (WORKSHOPS), **THE FORUM, BRYANSTON**

BI and Analytics is a fast-moving environment and can mean different things to different people. From data management and data analytics to artificial intelligence and machine learning to visualisation, today's businesses require a thorough understanding of the entire business intelligence landscape if they are to successfully translate their data into actionable insights. ITWeb's annual BI & Analytics Summit 2019 will once again provide a platform for BI decision makers and data specialists from across industry to meet, share knowledge and hear about the latest technologies, solutions and trends. The focus for the event is on the practical application of BI and analytics into the business and will feature local and international case studies, real success stories and lessons learnt, interactive panel discussions and practical workshops. This is THE annual BI and analytics event on the South African calendar.

ITWeb Business Process Automation Summit 2019

9 April 2019, **THE FORUM, BRYANSTON**

Automation is a natural progression for all industries as it increases business speed and scope. This event will deal with the concern people have that automation not only means that jobs will be taken by machines but also that jobs will change in all aspects of the economy. It will try to illustrate that automation will free employees from many of the manual, error-prone tasks that they dislike so much and allow them to focus on the things that matter. Organisations that do not automate their mundane tasks will lose competitive advantage and eventually become redundant.

ITWeb Customer Experience 2019

7 MAY 2019 (CONFERENCE)
8 MAY 2019 (WORKSHOPS) **THE FORUM, BRYANSTON**

Customer experience and customer centricity has become something that organisation cannot avoid. This is because the voice of the customer has become stronger due to social media channels, where organisations can be held accountable for bad service or be praised for a job well done. Therefore, reputational damage is top of mind for companies across the board. Here at the inaugural ITWeb Customer Experience 2019 summit we will be assessing omni-channel digital experiences. Deliberating as to whether it is the way forward. How to incorporate technology to drive better customer experiences and how to develop products and services with the customer in mind? We will be showcasing technologies that can strengthen your customer interactions and share content that can give you the competitive advantage.

Upcoming events for IT professionals

ITWeb Security Summit 2019

21 MAY 2019 (WORKSHOPS)
22 MAY 2019 (CONFERENCE & EXHIBITION)
23 MAY 2019 (TRAINING) **SOUTHERN SUN CAPE SUN, CAPE TOWN**

27 MAY 2019 (WORKSHOPS)
28-29 MAY 2019 (CONFERENCE & EXHIBITION)
30 MAY 2019 (TRAINING) **SANDTON CONVENTION CENTRE**

ITWeb's Security Summit is THE South African business event of choice in the information security industry and is a high-profile conference and business exhibition that equips delegates with tools to tackle today's mission-critical security objectives – no matter how rampant the user ignorance or non-compliance that runs throughout their organisations. In a rapidly evolving threat landscape, it has never been more vital to remain aware of the state-of-the-art in best practice and technologies available to security practitioners, the methods and tools in use by attackers and the emerging legal and compliance demands. ITWeb's Security Summit 2019 will once again draw on the insights of industry experts, analysts and end users to deliver an agenda aligned with the specific threats and opportunities facing African CISOs, security specialists, risk officers and CIOs. Top international, African and local speakers will again ensure that this Summit – the 14th annual information security event from ITWeb – continues to build on its legacy as the 'must-attend' gathering for every IT, security and business decision-maker who is serious about promoting excellence in information security to the benefit of his / her company and the information security community as a whole.

ITWeb Data Centres Summit 2019

10 JULY 2019, **THE FORUM, BRYANSTON**

Now in its 5th year, the ITWeb Data Centres Summit is ready to welcome over 200 industry leaders and decision makers to this premier annual event. The summit has attracted industry experts to deliver insightful case studies. They will be identifying the broader technology trends that are affecting data centres, in addition to this; we will be assessing the current opportunities and threats the industry is facing. Leading technology providers will showcase their products and services, putting you at the forefront of the technologies in this space. This is a must attend event for all data centre and IT infrastructure professionals. Can you afford to miss this event?
